Revisiting the Xxtarlit Doc: An Investigation into Grooming & the Order of the Nine Angles

· · ·

Preamble

This is a revisiting/rewriting of a document written just last year to call out musician & artist Xxtarlit & is meant as a continuation & revisal of the original document. The original is difficult to find & has a lot of language I am not proud of -like calling people schizo & drug-addicted, which is not the way this type of thing should be handled. The original versions can be found [here \(uncensored\)](#) & [here \(censored\)](#). This paper will contain references to/images of self-harm, drug-abuse, lolicon, fascism, Satanism/spiritualism/religion, etc. Per [Medium's TOS](#), any photos shown will be censored.

Introduction to Nia

Nia -better known as Starlit or Xxtarlit & perhaps best-known for her work Fleeting Frozen Heart- is a musician & artist, as well as an autistic trans-woman who practices Satanism -& I believe a system, though I do not know & don't want to accidentally misrepresent her or any individual with DID or anything similar. Her musical work is largely a combination of hexD, breakcore, drum & bass, & trance; with her visual art & aesthetic largely coming from Satanism & anime/chibi. She was also previously on the label Dismiss Yourself -where some of her merchandise & music was released- & runs the collective REDLIXXGHTS. A host of events led to myself & some others creating an exposé on her, which had been largely ignored & even ridiculed by her & her fans, associates, etc; although, it did result in her getting booted from Dismiss Yourself. Here is a recounting of that.

Introduction to the Paper, its Author, & its Contents

Sometime in mid/late 2021, I had learned about Xxtarlit & had started listening to her music. With an already blossoming love of the aesthetics & genres associated with &/or made by Nia -& as a practicing Satanist/Luciferian/Demonologist/whatever-you-wanna-call-it- I quickly found myself in Nia's Discord server & was communing quite frequently with everyone there. Obviously as an autistic transfemme with an interest in practicing Satanism & in making breakcore, drum & bass, & hexD music; Nia & I started getting along well together & we became, *ostensibly*, friends. I, as somebody who at the time particularly was pretty lonely & in a weird spot with a lot of my relationships, moving around, etc., was more than happy to be talking to Nia whenever she was available. We had much in common, even insofar as our names -Nil & Nia- being opposites -Void & Light- & our astral parents being one & the same -Lucifer & Lilith. We took a liking to each other, as well as each other's art & music, & pretty soon I was in REDLIXXGHTS, gaining access to an extra hidden channel in her Discord server. Our sisterhood, as we called it, was very strong -but the cracks slowly grew.

anywhere I could find, & becoming slowly paranoid. I was very likely developing/going through psychosis during that time; I remember being intensely worried I was becoming schizophrenic. At some point I had realized the root cause of it all, & realized a lot of the things I had been seeing. A few other concerned individuals & I decided to cut ties with Nia, as well as try to prevent more people from falling into what we had fallen into. The document, originally released by SadToThe as the least vulnerable amongst us, was - admittedly- rushed & sloppy, but it served to get the word out somewhat. Somewhat wasn't enough however; the main attention it got was from O9A-affiliated trolls (O9A being Order of the Nine Angles) & people essentially dickriding Nia -& Nia essentially brushed it off without any major outrage outside of being made fun of on Dismiss Yourself's Discord server. I see people talking about her in a bad light on occasion, with people typically surprised to learn she's a fascist, but it never really got much steam & I far more often see clueless breakcore fans praising her music. It seems now she has made her Discord server a Patron-only venture, with it being a reward for chucking \$3 (a month) at her [Patreon](#) -probably the only major effect the doc had on her- but nothing much else has changed. This paper will attempt to dive deeper into the accusations previously described in the document, as well as get it to a much further audience than an obscure [Archive.org](#) PDF ever could. I'm sure I will get hit hard by O9A affiliates/"members," possibly even harder than SadToThe was when he initially posted the documents on Twitter, but I won't back down.

Order of the Nine Angles, Tempel ov Blood, Fascism, & Racism

The [Order of the Nine Angles](#) (O9A or ONA) is an originally-UK-based Satanic & Left-Hand Path occultist group. To quote Wikipedia's descriptions of its beliefs;

The ONA promotes the idea that human history can be divided into a series of aeons, each of which contains a corresponding human civilization. It expresses the view that the current aeonic civilization is that of the Western world, but it claims that the evolution of this society is threatened by the "Magian/Nazarene" influence of the Judeo-Christian religion, which the Order seeks to combat in order to establish a militaristic new social order, which it calls the "Imperium". According to Order teachings, this is necessary in order for a galactic civilization to form, in which "Aryan" society will colonise the Milky Way. It advocates a spiritual path in which practitioners are required to break societal taboos by isolating themselves from society, committing crimes, embracing political extremism and violence, and carrying out acts of human sacrifice. ONA members practice magic, believing that they are able to do it by channeling energies into their own "causal" realm from an "acausal" realm where the laws of physics do not apply, and these magical actions are designed to help them achieve their ultimate goal of establishing the imperium.

Although many "Niners" -as they are called- may disagree with Wikipedia's definitions & summaries of their group -& furthermore with my definitions of them- they are a Neo-Nazi group, & have been continually agreed by investigators & reporters to be as such. They have continuously been affiliated with Neo-Nazi organizations such as [Atomwaffen Division](#) & [Iron March](#), & their community both online & in real life have been, very obviously, Neo-Nazis.

popular works are Iron Gates & Liber 333 (not to be confused with Crowley's book of the same title, which will be referenced specifically as Crowley's Liber 333 henceforth); the former essentially being a rape & pedophilia-fetish rant with some apocalyptic Nazi-Satanist fluff thrown everywhere; & the latter being a collection of writings by the ToB largely containing sets of Nazi-worshipping rituals & their mission statement, which reads:

[...] we wish to hold as our highest priority the creation of the New Being. The realization of the meaning of the human's life is this — humans are nothing in themselves, they are great however once they have decided to become a bridge to the New Being variously described and symbolized by Homo Galactica, Ubermensch, Noctulians, Vampires, and the various titles given to Alien beings in such mythologies. ANY and ALL humans who fail to embrace this evolutionary urge will serve as food and a resource to be used by the New Being- as a human would a lesser animal. Thus is our philosophy and way of being a terror to the Magian. So much sweeter will their Blood Essence be to consume...

Also in the ToB's Liber 333 is this -which I hope helps you grasp just how ingrained Nazism is in ToB & O9A worship (& also as an aside, would be quite funny if this shit did not get people hurt):

How does this all tie back to Nia? Well, while I was first becoming initiated with Demonology more closely I spoke a fair amount in Nia's server & with her, & one of the things they showed me while asking about Choronzon -a demon or spirit originally by Crowley- was ToB's Liber 333 (also note: two emojis in her server are the ToB & O9A sigils -will return to that later; Kuro is/was Nia's boyfriend; I am the blurred out/censored individual).

The connection that Nia had to obvious Nazi worship should be in & of itself very obvious -even without mentioning the ToB & O9A emotes- but it gets deeper when investigating Kuro. Kuro, as previously mentioned, is/was Nia's boyfriend during my time in her server -I'll assume he still *is* so I don't have to keep saying *was/is*- & was probably one of the most bold about his affiliation with the O9A & Nazism generally. Before we get all the way there, though, I need to introduce Vesna.

Vesna was in the server for a brief period -probably about a month at most- & was characterized almost entirely by their association with the O9A, as shown here:

Vesna & Kuro were pretty tight in the server, & often conversed a lot about the O9A. Here's a short bit of a conversation on the O9A involving Nia, Kuro, Vesna, & some others.

This conversation & its thesis is already ironic given what we've gone over, but it gets even worse when investigating Kuro & Vesna even further.

On one occasion a previous member of the server (who would like to remain anonymous & will be called Anon1) called out Kuro & Vesna for using Nazi iconography & symbolism, which then caused them to be harassed by members of the server for various personal things. Here is a summary of that:

Note: The skull mask was coined by Atomwaffen

Note: Nazis still use the skull mask, which was -again- coined by Atomwaffen

The conversation continued in Anon1's & Kuro's DMs:

Note: Anon1 was unaware of the O9A at that time.

As if Kuro's apathy towards Nazis & towards learning about Nazi dogwhistles wasn't bad enough, they listen to National Socialist Black Metal (NSBM for short, literally Nazi Black Metal):

Here are some additional Kuro moments that fit in this section, but that I couldn't fit anywhere else:

Note: Gematria is a Jewish method for finding the value of a word or a phrase. You can see why posting the ToB sigil in response to it is very odd.

Note: Yes, that is a MAGA hat.

Investigating further into Vesna -the individual who said the O9A isn't a Nazi group is also telling. While I still believed Nia didn't fully know about the Nazism in the O9A & ToB (ie. while I was still being emotionally groomed - inadvertently or not- into being very attached to Nia), I joined some O9A Discord servers found through sites like Disboard (of note; these server-finders have a *really* bad Fascist problem, particularly Disboard) & began investigating into what their communities were like. If you're curious about that, it was a lot of really edgy Isis beheading videos, really unfunny & honestly shocking racism, & more stuff that thoroughly traumatized me & probably kick-started an episode of psychosis. Vesna was in one of the servers I investigated, & I attempted to log some of their behavior & tell Nia about it.

She banned Vesna after this (see the image after the image after this one; will be notated), but didn't address how the O9A was related to Vesna's obviously deeply racist ideology. Also of note; Vesna came back on an alt & was banned if I remember correctly, & then was the first to defend Nia when the doc came out & was posted about on Twitter.

Note: Vesna getting banned.

Note: Iron Gates is the previously described book by the ToB that essentially worships rape & fascism, & the
Martinet Press is a publishing organization that publishes occult & Nazi books.

I believe all of the previous messages were left without a response from Nia.

Nia also has had a habit of associating with & harboring non-black people who
say the N-word (she blames not moderating the server on being nocturnal, by
the way), as well as saying it herself:

<https://twitter.com/ghoooostie/status/1257662986291777538>

Nia's face.

Kuro's face.

KHAOS/KLIN9Y's face.

Here's an excerpt of a big thing that went down where a white person said the N-word, & multiple people had to complain to get them kicked. The individual with the Otonashi Ayana profile picture (Anon2) is black, Dekoro (the user with the Japanese name & the greyscale pfp) is not. Note that Kuro didn't care the whole time:

This is where Dekoro was banned & the bot got wiped so it wouldn't start saying slurs. A VC was also happening at the time with Nia & Anon2 in it, although I wasn't in the VC so I can't recount what happened.

There's nowhere I can think to put this, but here is some screenshots of Nia & Kuro talking about the Sonnenrad (a symbol *invented* by Nazis, regardless of what is said online about its origins):
